My very dear Parents,

It is indeed a great honour to be associated with two individuals whose strenuous task and labourious efforts have been devoted to their Country's development & its people's happiness. I know ~~you~~ there must have been moments of great despair, but faith in an ultimate goal with love & patience has been the only way.

May God help you & protect you through these more gruelling years which lie ahead & grant that your contribution will be greatly admired by posterity.

I in my small way hope your children will grow to give you the pleasure you must have given your parents in contributing in your span of years the Best Thing for your Fellowmen - Freedom & Happiness.  
God bless our Premier & his family.

Sincerely  
Cécile S. Dubreya
