

9/25/40

Dear Folks,

Received your letter —  
Also received one from  
Jim — with a <sup>\$</sup>5.00 money  
order. I paid my fees  
today. The tuition was  
\$45 and my room and  
board for a month was  
\$37.00. Jules bought  
my books today — all  
of them, and it only amounted  
to \$10.77. I only had to  
buy one new book.  
I registered for my classes.  
I could not get Italian

as it was given the same time  
as Spanish and therefore  
will not be able to take  
it at all, as Italian  
is only given at alternate  
years. I was told that I  
don't need as second language.  
My subjects now are:

Spanish literature  
Spanish Composition  
History of Latin America  
Bacteriology  
Sociology  
English Composition  
Swimming.

I told the swimming teacher  
that I was an instructor  
and she said that I would  
probably assist her.

My roommate is a swell  
girl and we get along perfectly.  
She is a veterinary student.

There are only about 10 of them at M.S.C. We have all the same interests. Her name is Claire Gordon. She is Jewish, although I didn't even suspect it for a few days. She's interested in horses, and knows more than the average amount about them, and riding.

The girls here are very friendly. I went to a reception for women the other evening.

Eugene Karnfield has been very nice to me and has helped me a bit around the Campus.

Tomorrow evening there is a mixer for Jewish student. Friday evening

4.  
there is a Freshman Wife.

I bought a clock, and ordered stationery and spent about \$5.00 on these and incidentals.

All my clothing is adequate, and I don't need anything or any money.

The meals here are very good. We have Cafeteria style for breakfast and lunch.

I was talking to my advisor about my credits, and he said that I'll need one more term plus summer school to graduate but I figured I can fit the summer school hours in gradually.

It was very cold today, so if it keeps up like this I'll start wearing my winter
