EarthLink Revolves Around You.

**Attention Mrs Jagan,**

I am working on a paper about the formation of the PPP.

Can you tell me why was the Cup chosen as the party's symbol. What is its significance.

Best Regards.

Bhisham

Dear Bisham,

As General Secretary of the PPP in 1953 I was asked to pull out a symbol for the 1953 elections from a container of several symbols. I pulled the cup - therefore the PPP did not select the Cup as a symbol, it was merely chance.

The Party, however, has made various uses of our official symbol through the years, giving it its own significance in the various election campaigns we have contested

PS I am prepared to look over your paper for any errors it might contain re the PPP's history.
